**§ 102 REJECTION – GOTOH**

Claims 1-9, 29-52 and 71 stand rejected under 35 U.S.C. § 102(b) as allegedly being anticipated by Gotoh et al. (WO-98/14938-A). *See Office Action, items 2 and 3.* The rejection with respect to claims 41, 46 and 51 is mooted. With respect to the remaining claims, Applicants respectfully traverse.

Independent claim 1 recites, in part “writing file information on a specific area of the optical recording medium, wherein the file information includes a size information specifying a size of the real time data written in each data area divided by the defective areas and a location information specifying a location of each of the divided areas.” Applicants respectfully submit that Gotoh does not teach or suggest at least the above recited feature. Accordingly, independent claim 1 is distinguishable over Gotoh.

Independent claims 29, 37, 42, 47 and 52 are amended to recite similar features. Accordingly, these independent claims are also distinguishable over Gotoh.

Claims 2-9, 30-36, 38-40, 43-45, 48-50 and 71 depend from independent claims 1, 29, 37, 42, 47 and 52 directly or indirectly. Accordingly, these dependent claims are also distinguishable over Gotoh for at least due to their dependencies from the independent claims.

Applicants respectfully request that the rejection of claims 1-9, 29-52 and 71 based on Gotoh be withdrawn.

### **CONCLUSION**

All objections and rejections raised in the Final Office Action having been addressed, it is respectfully submitted that the present application is in condition for allowance.
